

PROPOSAL FOR CCTV SURVEILLANCE INSTALLATION

1. INTRODUCTION

Gone are the days when using CCTV surveillance for business was an option. Today almost every organization is using CCTV surveillance to provide **maximum** and **effective security** to their business.

CCTV is designed to help prevent and detect crime. It can reassure the public about community safety and provide evidence to relevant enforcement agencies. Also helps to control staff behaviors to work.

2. INSTALLATION PROCESS AND STAGES INVOLVED:
